PARTHVI EXIM

ABOUT US

DHRUVI MAVANI

Our company is engaged in the export of high-quality Indian agricultural commodities, specializing in premium Cumin Seeds and Psyllium Husk. Based in India, we work closely with trusted farmers, processors, and suppliers to ensure consistent quality and reliable supply to international markets.

India is the world's leading producer and exporter of cumin and psyllium, and we take pride in delivering products that meet global standards. Our products are carefully cleaned, processed, and packed using modern techniques to maintain purity, aroma, and nutritional value.

We follow strict quality control and comply with international export standards. With proper documentation such as FSSAI license, phytosanitary certification, fumigation, and export registrations, we ensure smooth and safe delivery of our products to customers worldwide.

Our focus is on building long-term relationships with buyers by offering competitive prices, reliable shipments, and excellent service. At PARTHVI EXIM, we don’t just export products; we export trust and the rich heritage of Indian agriculture.

VISION

To become a globally recognized benchmark for quality in the agro-export industry, fostering a world where premium, sustainably sourced Indian spices and health supplements are accessible to every market.

MISSION

- Quality First: To consistently deliver products that meet and exceed international food safety and purity standards.
- Customer Centricity: To build long-term relationships based on transparency, timely delivery, and ethical business practices.
- Empowering Origins: To support local farming communities by promoting sustainable agricultural practices and fair trade.

MOTIVE

Our motive is to promote the richness of Indian agricultural products in the international market while maintaining the highest standards of quality and reliability. We aim to create value for our customers by supplying pure, natural, and properly processed products at competitive prices.

DEHYDRATED GARLIC

PRODUCT OVERVIEW

Sourced from quality-focused agricultural supply chains, Parthvi Exim offers premium-grade dehydrated garlic for food processing, seasoning, and culinary applications. Processed using low-temperature hot-air dehydration, our garlic products are designed to retain their characteristic pungency, rich aroma, and distinctive flavour, delivering convenience and consistency to food manufacturers and culinary brands worldwide.

COMMERCIAL & PROCESSING BENEFITS

- Ready-to-use ingredient with no peeling or chopping required.
- Consistent garlic flavour and pungency for commercial food applications.
- Reduced preparation labour and processing waste.
- Compact storage and transportation compared with fresh garlic.
- Controlled moisture content to help maintain product stability and free-flowing characteristics.

CULINARY & FOOD USES

- Essential flavour base for soups, sauces, gravies, curries, and stews.
- Key ingredient in seasoning blends, spice mixes, marinades, and rubs.
- Widely used in instant noodles, savoury snacks, and ready-to-eat foods.
- Suitable for dressings, dips, condiments, and savoury preparations.
- Used in processed foods, frozen meals, and commercial food formulations.

INDUSTRIAL & INGREDIENT APPLICATIONS

- Used in spice blends, seasonings, and industrial food formulations.
- Suitable for processed foods, sauces, snacks, and instant food products.
- Garlic-derived compounds are of interest in botanical ingredient applications; specific functional or health claims depend on the product and supporting evidence.
